

## Three Questions to Prompt Tangible Outcomes

1. In what ways can you continue productive conversations about important matters raised at this gathering?

*Do you know of two or more people who want to work on a project derived from your conversations and work together? If so, how many different ways can you suggest for collaboration—how might we help?*

2. In what ways can ideas from this gathering be disseminated to other relevant groups?

*What are you willing to do to help disseminate ideas—to whom and for what purpose? How might we help? With whom can you share ideas and insights from your work at this gathering?*

3. Suggest a concrete idea(s) for a partnership (with a church community, a foundation, businessperson) that could further the ideas generated at this gathering.

*What potentially fundable issue and/or project could you suggest?*
